## OBJECTIVE

Full Stack Engineer looking to make an impact at a growing company, eager to learn and contribute in a team setting.

## LANGUAGES AND TECHNOLOGIES

React — React-Native — Nodejs — Express — Python — Flask — PostgreSQL — Git — HTML — CSS — JavaScript

## CLIENT AND PROJECT WORK

### **Barkeep's Delight** *Drink Recommendation Mobile App*

Google Play Store

- Designed and developed an implementation of a cocktail data API using GraphQL.
- Utilized React-Native with React-Navigation to display data and achieve cross-platform functionality.

### **Carbe Diem** *Calorie and Nutrient Tracker*

carbe-diem.herokuapp.com/

- Designed and developed a database driven website utilizing the Edamam Food Data API.
- Handled user health calculations using Jinja templating through the Python-Flask framework.
- Implemented both Python and JavaScript libraries to handle authentication, login, and data visualization.

## WORK EXPERIENCE

### **100Devs**

*Software Engineer*

Remote

October 2020 - Present

- Collaborate with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured full stack web applications.
- Applied agile methodologies like SCRUM for project management.

### **UCLA STAND**

*Mental Health Coach*

Los Angeles, CA

Feb 2021 - Present

- Implemented motivational interviewing techniques to help walk participants suffering from anxiety and depression through the different behavioral techniques to help manage their emotions.
- Train and certify on various modules and cognitive behavioral therapy techniques as a continued effort and commitment to learning and providing the best treatment possible.

### **Good Day**

*Software Consultant*

Eureka, CA

October 2020 - April 2021

Website Link

gooddaygoodyou.com

- Retained as a paid consultant to help streamline functions and flows throughout the website prior to establishing design work with a 3rd party.
- Helped to exceed goals and stayed on throughout the design process to make sure that visual elements aligned with outline goals. Coordinated work between marketing goals, design team creations, and my own solo end of function to ensure everything worked smoothly.
- Worked with parent company to design a B2B website for supplement formula writing company.
